

C54APM C04-058

Wireless 54Mbps 11g Access Point

This Access Point allows you to set up a network without any cables working at a speed of up to 54 Mbps. The Access Point uses radio waves to connect notebooks, PCs or PDAs equipped with wireless LAN adapters. Several Access Points can be used in a network (bridging).

Highlights

- Supports Bridging
- Easy Web configuration
- High security
