

129410 Multimodulares Crimpwerkzeug

Product Images

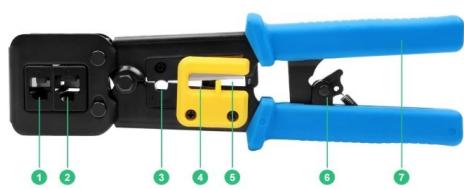

Instructions
Modular Crimping Tool allows for easy installation of Cat5e and Cat6 connectors. It is a reliable crimping tool that consistently delivers superior results. Flat cable cutter and stripper are embedded.

Steps for usage

1. Put the cable into the corresponding stripping port for stripping, and the stripping length is 3-4 cm.
2. put the stripped cable into the cutting port and cut it if necessary.
3. Insert the cable into the modular connector in the correct wire sequence
4. Insert the modular connector into the corresponding pressure interface
5. Hold the modular connector with one hand and press the handle with the other hand.
6. Remove the modular connector and complete the crimping
